

# ISO14001 Internal Auditor Training

Brought to you by CREA

# Course Specification

## 1. Introduction

This course aims to equip participants with the knowledge and skills needed to assess and report on the conformance and effective implementation of an environmental management system in accordance with ISO 14001.

## 2. Profile

This course comprises lectures, workshops and role-play exercises. Participants are not expected to possess knowledge of auditing, quality management systems or ISO 14001 before attending the course. Successful completion of this course and the ISO 14000 foundation course fulfils part of the training requirements for certification as an EMS internal auditor with the IRCA

## 3. Course Objectives

- Describe the responsibilities of an internal auditor and describe the role of internal audit in the maintenance and improvement of management systems, in accordance with ISO 19011.
- Explain the purpose and structure of ISO 14001, and explain the principles, process and selected techniques used for the assignment and management of environmental aspects and impacts, including the significance of these for EMS auditors.
- Plan and prepare for an internal audit gather audit evidence through observation, interview and sampling of documents and records.
- Write factual audit reports that help to improve the effectiveness of the management system.
- Suggest ways in which the effectiveness of corrective action might be verified.
